Houschka Pro

a type specimen

Houschka Pro

Houschka Pro Light
11/13 pt

Houschka was named after a confectioner's shop in Salzburg which had a wonderful 1930's frontage and distinctively rounded letterforms in the sign above the door.

Houschka Pro is the follow up to the original Houschka type family which first appeared back in 1999. Character shapes have been improved, kerning and spacing refined, and Open-Type features include CE, Baltic, Turkish & Cyrillic language support plus small caps, 3 stylistic sets, contextual alternates, ligatures and 4 sets of numerals.

Houschka is clean and legible, a modern sans serif typeface which shares the humanist qualities of Gill Sans & Johnston but retains a uniquely charming character of its own through signature glyphs A, G, Q, W & w. The monolinear structure, rounded corners and rolling curves give Houschka Pro a soft and friendly appearance.

Houschka Pro Thin & Italic
38/44 pt

Houschka Pro has six weights from Thin to ExtraBold, *plus italics of each.*
